Weakness of Stocks Not Acute, But Net Losses Are

CLOSE WEAK AND ACTIVE

Declines Are by no Means Large, But Reaction is Unmistakable.

(By Associated Fices.)

**NEW YORK, Jan. 25.-The movement of prices, which had crept slowly unwards sire last fall, until last Thursday, when they began to advance including on a large volume of business, turned backwards to day and showed not losses on the day's business. The weakness was not at any time acute, and there was a period of portive strength after the opening, but this was palpably availed of to sell stocks. The reactionary tendency gained force as the day advanced, and the closing was week and active.

Many of the leading active stocks lost 1 to 2 points. These included St. Paul and the grangers Pacifies and Southwesterns and United Statos 5teel preferred. Those declines are by no means severe after, so consilorable an advance as has taken lace, but the reaction was unmistakened. There was not much more news of accompany it than there had been on the advance, which had been admittedly due to the operations on the long side, including manipulative tactics of a poverful built party.

The lack of evidence of any large share in the buying by the outside public helps to keep the approhensions of the professionals awake. London made a substantial demonstration of its renowed fears of war by selling some 50,000 shares of stocks in New York. A matured consideration of the Saturday bank statement danot help to reassure the speculative mind. The question is raised whether the heavy and the stocks in New York.
